

Level up your fitness center with the Peloton Pro Series

Bring the must-have fitness & wellness amenity to your fitness center. The new Peloton Pro Series, including Tread+ Pro, Bike+ Pro, and Row+ Pro, brings the full Peloton lineup to your property.* Guests can run, ride, and row – plus get strength, yoga, Pilates, and more – all from Peloton Pro Series equipment with the turn of a screen.

Transform your guest rooms into fitness suites with Peloton Bike Pro for in-room use, giving guests the ultimate workout experience in the comfort and privacy of their rooms. Hilton's Five Feet to Fitness with Peloton program is the perfect solution to maximize fitness space in your hotel, offer an elevated amenity, and earn additional revenue.

A Peloton Pro Subscription on each piece of equipment gives unlimited users access to thousands of live and on-demand classes with world-class instructors at no cost to them. Each unit comes with a commercial limited warranty, service, and support.**

880K+

PELOTON for Business

Peloton Tread+ Pro

Take your facility to the finish line

Built with premium features like a cushioned Slat Belt, Auto-Incline, and Free Mode, Tread+ Pro stands out in your facility. Exercisers will love its thousands of cardio and strength workouts, while operators will appreciate its rigorous commercial testing standards, and limited commercial warranty.

The features

A softer road

A rubberized Slat Belt gives exercisers a cushioned, cloud-like surface to run on, while intuitive knobs make speed and incline adjustments second nature—resulting in a stronger, more comfortable workout.

Thoughtful features for better workouts

Auto-Incline allows exercisers to sync Tread+ Pro to instructor cues with just a tap, while Free Mode turns off the motor and lets runners power Tread+ Pro with their own muscles for an extra challenge.

A reliable pick for your facility

With testing for 1,460 hours of annual use** plus a limited commercial warranty, Tread+ Pro delivers a dependable way for your exercisers to move again and again.

Swivel Screen

Exercisers can rotate the 23.8" HD touchscreen to switch seamlessly from running or walking to strength, yoga, Pilates, and more, giving them even more ways to move.

Personalized insights and guidance

Tread+ Pro gives exercisers weekly performance insights, cardio Performance Estimates, and personalized class recommendations to help them get the most out of their workouts.*

Upgraded connections

Tread+ Pro comes with Bluetooth® 5.2 and Wi-Fi 6 with WPA3 support, meaning exercisers can get connected and get started without any technical difficulties.

*Weekly performance insights require at least 3 recent non-meditation workouts.
Cardio Performance Estimates requires at least 3 recent workouts of the relevant discipline.
Personalized class recommendations require at least 5 recent workouts.
Personalization must be enabled.

**Based on internal product test results from 2025, performance and actual mileage may be impacted by maintenance of unit.

Tread+ Pro is only intended for use in hospitality and vertical markets.

Tread+ Pro

Exerciser experience

An unforgettable workout they'll keep coming back for

With thousands of classes led by Peloton's best-in-class instructors—and tons of unique Programs, Challenges, and Collections to enjoy—exercisers will return again and again to Tread+ Pro.

Difficulty levels and class lengths that suit every runner and walker

Exercisers will enjoy classes that challenge them appropriately, whether they're on day 1 or day 1,000 of their fitness journey. And with classes from 5–120 minutes long, there's something for every schedule.

Unique workout options beyond traditional classes

Exercisers can enjoy immersive Scenic runs and walks, take on an extra challenge with Free Mode (where their own muscles power the movement), or simply go at their own pace.

Multiple fitness disciplines to choose from

Tread+ Pro offers so much more than running and walking. With 10+ fitness disciplines available, exercisers can run, walk, hike, lift, stretch, practice yoga, do Pilates or barre, and much more, all with the turn of a screen.

Next-level features

Personalized Recommendations

Exercisers receive daily class recommendations based on their recent workouts and fitness goals, saving time and keeping routines fresh.*

Insights and Analysis

Exercisers receive weekly performance insights for a personalized look into how they worked out recently and where they should push next.*

Performance Estimates

Peloton analyzes an exerciser's workout history to predict personalized difficulty levels for cardio classes, helping them train effectively.

Pace Targets

A moderate pace for one person may look different from their gym buddy's. Pace Target classes calibrate instructor cues into paces that match individual levels, so classes never feel too fast or too slow and exercisers can improve their fitness appropriately.

* Weekly performance insights require at least 3 recent non-meditation workouts.

Cardio Performance Estimates requires at least 3 recent workouts of the relevant discipline.

Personalized class recommendations require at least 5 recent workouts.

Personalization must be enabled.

Pro Subscription

Unlimited users with access to thousands of classes

With the Peloton Pro Subscription, an unlimited number of exercisers can log in or create an account. This means exercisers can work out as much as they want in your fitness center with Peloton at no cost to them.**

Enhanced security features

Enhanced security for your facility and exercisers, including timed auto-logout and PIN-protected device settings.

Dedicated commercial support

Peloton is here to help, with devoted commercial service and support, a limited commercial warranty, and a marketing toolkit to help you promote Tread+ Pro in your facility.

** Separate Pro Subscription required for each piece of equipment. Commercial Preventative Maintenance sold separately.

PELOTON for Business

Peloton Bike+ Pro

An elevated workout for an elevated facility

Bike+ Pro delivers a fun, premium workout with thousands of guided classes across cardio and strength and a next-level Auto-Resistance feature. With a small footprint, Pro Subscription, and limited commercial warranty, it's a win for exercisers and operators alike.

The features

Swivel Screen

One piece of equipment, countless ways for your exercisers to work out. They can rotate the 23.8" HD touchscreen to switch seamlessly from cycling to strength, yoga, Pilates, and more.

Auto-Resistance

During a ride, exercisers can activate the Auto-Resistance feature to sync Bike+ Pro to instructor cues, allowing them to ride and climb at the right intensity without needing to adjust it manually. Plus, automatic resistance calibration at the beginning of each ride ensures a consistent experience every time.

A smoother ride

Supportive handlebars, ergonomic adjustment knobs, and our most comfortable saddle yet come together to create an even more enjoyable ride for beginners and pros alike. Plus, dual-sided pedals make Bike+ Pro compatible with either athletic or cycling shoes.

Personalized insights and guidance

Bike+ Pro gives exercisers weekly performance insights, cardio Performance Estimates, and personalized class recommendations to help them get the most out of their workouts.*

Upgraded connections

Bike+ Pro comes with Bluetooth® 5.2 and Wi-Fi 6 with WPA3 support, so that exercisers can hop on and get connected without any technical difficulties.

Small footprint, huge results

Bike+ Pro delivers maximum results but takes up minimal space. It fits in the space of a yoga mat, making it an easy addition to any cardio floor.

* Weekly performance insights require at least 3 recent non-meditation workouts. Cardio Performance Estimates requires at least 3 recent workouts of the relevant discipline. Personalized class recommendations require at least 5 recent workouts. Personalization must be enabled.

PELOTON for Business

Peloton Row+ Pro

A full-body workout for a full range of exercisers

With thousands of motivating-meets-challenging workouts, a Form Assist tool that helps beginners and experts alike row their best, plus a Pro Subscription and limited commercial warranty, Row+ Pro is an easy choice for exercisers and operators.

The features

Swivel Screen

One piece of equipment, countless ways for your exercisers to work out. They can rotate the 23.8" HD touchscreen to switch seamlessly from rowing to strength, yoga, Pilates, and more.

Near-silent drive train

Row+ Pro's magnetic resistance makes for a smooth, near-silent workout that minimizes noise in your facility, even as rowers give it their all.

Simple stowability

In case your facility floor plan changes, front wheels make it easy to move, while an Upright Wall Anchor provides compact vertical storage.**

Personalized insights and guidance

Row+ Pro provides weekly performance insights and class recommendations to help exercisers make the most of their workouts, plus the Form Assist tool which uses real-time feedback to teach proper form.*

Ergonomic design

Exercisers will enjoy a supportive seat, sturdy handle, and adjustable hook and loop foot-straps for a simple, comfortable set-up each time.

Upgraded connections

Row+ Pro comes with Bluetooth® 5.2 and Wi-Fi 6 with WPA3 support, so that exercisers can hop on and get connected without any technical difficulties.

* Weekly performance insights require at least 3 recent non-meditation workouts. Personalized class recommendations require at least 5 recent workouts. Personalization must be enabled.

** To avoid risk of accidental tip over and serious injury, never store the Peloton Row vertically without properly installing and using the Peloton-provided Upright Wall Anchor.

Row+ Pro

Exerciser experience

An unforgettable workout they'll keep coming back for

With thousands of classes led by Peloton's best-in-class instructors—and tons of unique Programs, Challenges, and Collections to enjoy—exercisers will return again and again to Row+ Pro.

Difficulty levels and class lengths that suit every rower

Exercisers will enjoy classes that challenge them appropriately, whether they're on day 1 or day 1,000 of their fitness journey. And with classes from 5–60 minutes long, there's something for every schedule.

Unique workout options beyond traditional classes

Exercisers can enjoy immersive Scenic rows or simply move at their own pace.

Multiple fitness disciplines to choose from

Row+ Pro offers so much more than rowing. With 10+ fitness disciplines available, exercisers can row, lift, stretch, practice yoga, do Pilates or barre, and much more, all with the turn of a screen.

Next-level features

Form Assist

A helpful on-screen visual gives rowers real-time feedback (think: “Bending Knees Early”) and post-workout form insights, helping anyone new or returning to rowing perfect their strokes in no time.

Personalized Recommendations

Exercisers receive daily class recommendations based on their recent workouts and fitness goals, saving time and keeping routines fresh.*

Insights and Analysis

Exercisers receive weekly performance insights for a personalized look into how they worked out recently and where they should push next.*

Pace Targets

With Personal Pace Targets, exercisers can customize each class to their ability and keep track of how hard they should be working based on their pace level.

* Weekly performance insights require at least 3 recent non-meditation workouts.
Personalized class recommendations require at least 5 recent workouts.
Personalization must be enabled.

Pro Subscription

Unlimited users with access to thousands of classes

With the Peloton Pro Subscription, an unlimited number of exercisers can log in or create an account. This means exercisers can work out as much as they want in your fitness center with Peloton at no cost to them.**

Enhanced security features

Enhanced security for your facility and exercisers, including timed auto-logout and PIN-protected device settings.

Room service, redefined

Peloton Bike Pro transforms any guest room into a fitness suite, giving travelers the chance to turn down time into go time, all in the comfort and privacy of their own space.

A new era of on-the-go fitness

Put the power of Peloton to work for you

Boost room rates

The in-room Peloton Bike Pro offers a premium and private workout experience that justifies a higher room rate. Surveyed travelers who were willing to pay more for hotel accommodations with Peloton equipment would pay \$40 extra per night for in-room access.¹

Win the booking

Attract millions of Peloton Members as guests. 75% surveyed say they are more likely to choose a hotel if it has Peloton equipment and/or class content.²

Meet travel demand and increase revenue

91% of Peloton Member travelers surveyed work out in a hotel gym or room while traveling, and 70% are willing to pay more for a hotel that has access to Peloton equipment and/or class content.²

The perfect wellness amenity

Small footprint, large impact

Bike Pro's compact size and premium design make it a seamless fit for your guest rooms and suites.

Private by design

Camera and microphone-free, Bike Pro provides guests peace of mind whether they are on or off the saddle.

Movement made personal

A Peloton Pro Subscription on each piece of equipment gives unlimited users access to log in or create a free account and get Personalized Recommendations, cardio Performance Estimates, and weekly insights.³

An investment in your brand

The presence of Peloton sends a clear signal about your standards to your guest, boosting the perception of your hotel as a premium property. Elevate your rooms with the equipment guests ask for by name—and that they will seek out on the go again and again.

¹ Based on a survey of approx. 275 Peloton members and 372 non-members who stay in a hotel or vacation rental 2+ times per year and are willing to spend "somewhat" or "much more" per night for access to Peloton equipment in their hotel, conducted by Peloton in November 2024.

² Based on a survey of approximately 389 Peloton Members who stay in a hotel or vacation rental 2+ times per year, conducted by Peloton in November 2024.

³ Separate Pro Subscription required for each piece of equipment. Commercial Preventative Maintenance sold separately; availability varies by country and is expected to expand to additional markets over time. Weekly performance insights require at least 3 recent non-meditation workouts. Cardio Performance Estimates requires at least 3 recent workouts of the relevant discipline. Performance Estimates are not currently available on Row+. Personalized class recommendations require at least 5 recent workouts. Personalization must be enabled.

Strengthen every stay

Bike Pro

Versatile, engaging cycling equipment that helps exercisers make every workout more efficient, more effective, and more motivating.
